

SEALIGHT PICTURES

PRODUCTION SERVICES

WHO WE ARE

SeaLight Pictures is an international award-winning production company based in Sydney, Australia with specialist expertise in high-end natural history, science, and marine documentaries. Its clients include Netflix, Disney+, PBS, BBC, Nat Geo, Nutopia, Discovery, History, ABC, ARTE, Al Jazeera, SVT, CCTV9, the Georgia Aquarium and science institutions in Bermuda and China.

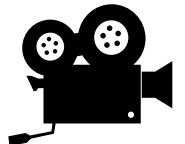

WHAT WE DO

SeaLight produces premium television content for the international market - and alongside our own productions, we are able to offer our experienced crew, top-of-the-range cameras and specialist equipment, and industry experts to assist other production companies seeking to film in Australia and the Indo-Pacific.

Whether it's start to finish; planning, producing, budgeting, permitting, staffing & filming; or filming species for major natural history sequences, SeaLight has the experience, hardware and contacts to capture stories above or below water.
